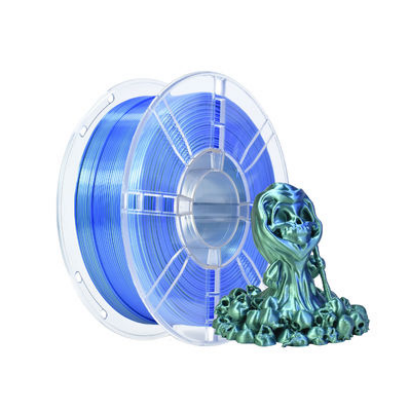
PLA+ 3D Printer Filament, Silk PLA PRO Filament 1.75mm Dual Color Blue Green 3D Filament 1KG

Our Product Introduction

Basic Information

- Place of Origin: Qingyuan,china
- Brand Name: iBOSS
- Certification: ROSH
- Model Number: PLA+
- Minimum Order Quantity: 48kg/rolls
- Price: US$9
- Packaging Details: 1KG/PCS, packed into a 30*35CM PU vacuum shrink bag, 12 corrugated aircraft CTNs(21.5*20.5*6.9CM) in a 43.1*23.2*43CM box,
- Delivery Time: 5-7days
- Payment Terms: L/C, D/A, D/P, T/T,
- Supply Ability: 10000000kg



Product Specification

- Printing Temperature: 190-220ºC
- Industry: 3D Printer
- Bubble: 100% Without Bubble
- Specification: PLA+
- Feature: High Strength
- Customization: Available | Customized Request
- : Initial Payment Full Payment
- Highlight: **pla 1.75mm filament**, **silk 1.75mm filament**, **1.75mm pla silk filament**

Product Description

PLA+ 3D Printer Filament, Silk PLA PRO Filament 1.75mm Dual Color Blue Green 3D Filament 1KG

Product Attributes

Attribute	Value
Printing Temperature	190-220°C
Industry	3D Printer
Bubble	100% Without Bubble
Specification	PLA+
Feature	High Strength
Customization	Available

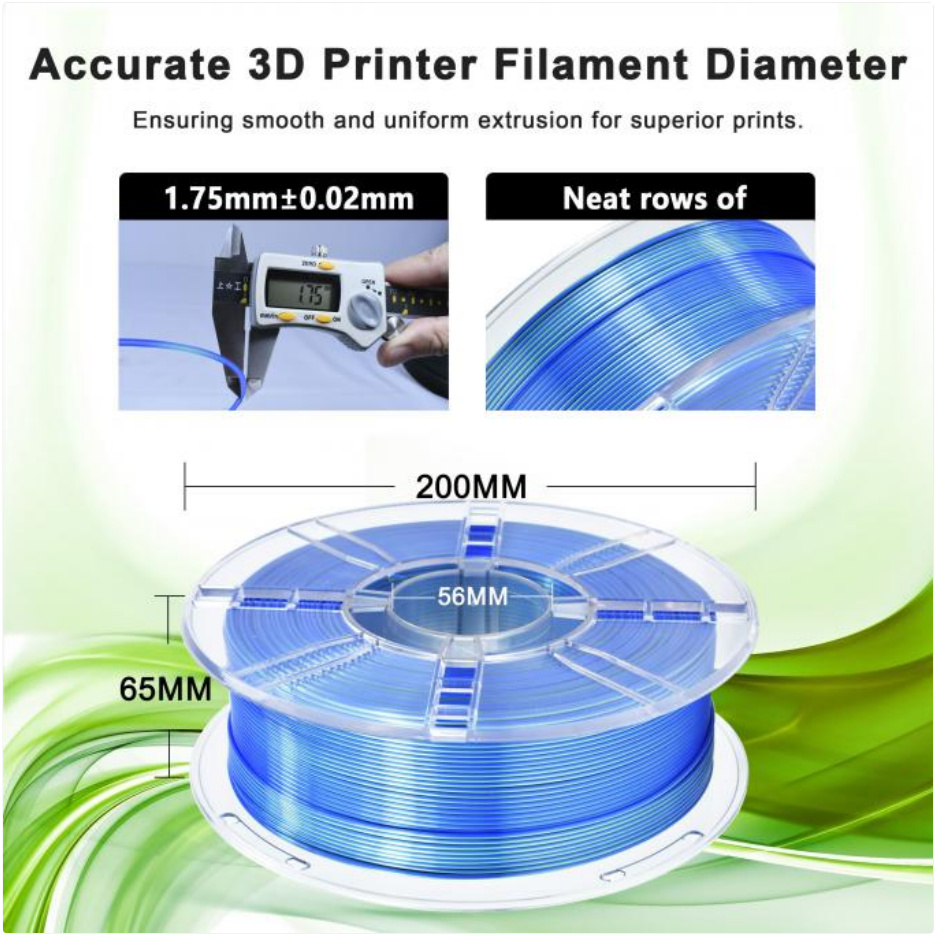
Product Description

Our Silk PLA PRO Filament in a 1.75mm diameter is a game-changer for 3D printing enthusiasts. This 1KG spool of PLA+ filament combines functionality with eye-catching aesthetics.

The dual-color design, blending blue and green, allows for the creation of truly unique and visually stunning 3D prints. Whether you're crafting decorative items, small sculptures, or functional prototypes, this filament will add a touch of novelty.

Made from high-quality PLA+ material, it offers enhanced strength and durability compared to regular PLA. It has excellent layer adhesion, reducing the risk of print failures and ensuring smooth, seamless surfaces. The silk finish gives prints a luxurious, satin-like sheen that sets them apart from standard plastic-looking models.

It's also highly compatible with most 1.75mm FDM 3D printers. Easy to load and feed, it enables a seamless printing experience for both novice and experienced users, unlocking a world of creative possibilities.



Technical Specifications

Model	PLA+
Net Weight	1KG

Gross weight	1.5KG
Packing box size	21*21*7cm
Diameter	1.75mm
Tolerance	±0.02mm
Print Temperature	190-220°C
Base plate Temperature	60°C
Density	1.23±0.05g/cm3
Printing Speed	50-100m
Bubble	100% without bubble
Length of Line (Ø 1.75±0.2mm)	1.75mm=330m

PODUCT FEATURES

Eco-friendly
Non-toxic

Using natural degradable raw materials,Environmental protection, non-toxic and harmless

04

SIMPLE OPERATION

Can be printed directly without heated build platfom

05

Low warping

Low warping, stable and efficient suitble for printinglarge models

06

About us

Qingyuan iBOSS Intelligent Technology Co., Ltd. is a high-tech enterprise specializing in the R & D, production and sales of 3D printing consumables and 3D printers. The company is committed to the development and application of 3D printing materials.

With the mission of "developing green and environment-friendly 3D printing materials and promoting human sustainable development", the company is committed to enabling intelligent manufacturing with material technology and providing better product and service experience for users in the global 3D printing industry

QINGYUAN IBOSS INTELLIGENT TECHNOLOGY CO., LTD.

It is an international team full of enthusiasm for 3D printing. We produce the best 3D printing materials by controlling each stage of production. With a diverse portfolio of materials from high-performance plastics to unique aesthetic solutions, polymaker will continue to add cutting-edge materials to its growing portfolio. Adhering to the corporate philosophy of "integrity, focus, innovation and pragmatism", while striving for the company, the company continues to forge ahead and strive to promote the innovative development of the world's 3D printing industry.
