## **IBOSS Cyan PETG Filament 3D Printing Filament 1.75mm FDM Forming Technology 3d Printed**

1KG/PCS, packed into a 30\*35CM PU

CTNs(21.5\*20.5\*6.9CM) in a 43.1\*23.2\*43CM box,

vacuum shrink bag, 12 corrugated aircraft

#### **Basic Information**

- Place of Origin:
- Brand Name:
- Certification:
- Model Number:
- Minimum Order Quantity: 48kg/rolls
- Price:
- Packaging Details:
- Delivery Time:
- Payment Terms:
- Supply Ability:

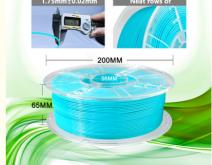

#### **Product Specification**

- Suitable For:
- Spool Size:
- Hs Code:
- Bubble:
- Industry:
- Tensile Strength:
- 1kg 3916909000 100% Without Bubble

Universal

**3D** Printer 50MPa

#### Accurate 3D Printer Filament Diameter and uniform extrusion for superior prints

#### **Product Description**

#### IBOSS Cyan PETG Filament 3D Printing Filament 1.75mm FDM Forming Technology 3d Printed

It is designed for FDM (Fused Deposition Modeling) 3D printers. FDM technology works by melting and depositing thermoplastic filaments layer by layer to create 3D objects. The IBOSS PETG Filament has excellent toughness, resisting cracking and warping. After being subjected to external force, it can quickly return to its original shape without deformation. With a dimensional accuracy of ±0.02mm, it ensures stable and high - quality prints. Ideal for a wide range of 3D printing projects.

Our Product Introduction

# DODIICTEEATIIDEC

#### FUDULIFEATURES

### IMPORTED RAW MATERIALS

Use imported superior raw materials Standardized manufacturing process The production quality is guaranteed

# **HIGH QUALITY**

High quality ensures the efficiency of operation,PLA: No Bubble,No Clogging

# **HIGH TOUGHNESS**

Compared with pla,the toughness is greafly improved: No Cracking,Minimal Warping

# Eco-friendly Non-toxic

Using natural degradable raw materials,Environmental protection, non-toxic and harmless

# SIMPLE OPERATION

Can be printed directly without heated build platfom

# Low warping

Low warping, stable and efficient suitble for printinglarge models

# About us

Qingyuan iBOSS Intelligent Technology Co., Ltd. is a high-tech enterprise specializing in the R & D, production and sales of 3D printing consumables and 3D printers. The company is committed to the development and application of 3D printing materials.

With the mission of "developing green and environment-friendly 3D printing materials and promoting human sustainable development", the company is committed to enabling intelligent manufacturing with material technology and providing better product and service experience for users in the global 3D printing industry

CHARVUAN IROSS INTELLIGENT TECHNOLOGY CO., LTD. It is an international team full of enthusiasm for 3D printing. We produce the best 3D printing materials by controlling each stage of production. With a diverse portfolio of materials from high-performance plastics to unique aesthetic solutions, polymaker will continue to add cutting-edge materials to its growing portfolio. Adhering to the corporate philosophy of "integrity, focus, innovation and pragmatism", while striving for the company, the company continues to forge ahead and strive to promote the innovative development of the world's 3D printing industry.

### WHY CHOOSE US ?

Qingyuan iBOSS Intelligent Technology Co., Ltd.
