

iboss Temperature Color Change PLA+ Filament 1.75mm, Color Change Orange to Yellow 3D Printer Filament PLA +, Fit for Most FDM 3D Printers

Basic Information

• Place of Origin: Qingyuan,china

Brand Name: iBOSS
Certification: ROSH
Model Number: PLA+
Minimum Order Quantity: 48kg/rolls
Price: US\$13

• Packaging Details: 1KG/PCS, packed into a 30*35CM PU

vacuum shrink bag, 12 corrugated aircraft

CTNs(21.5*20.5*6.9CM) in a 43.1*23.2*43CM box,

Delivery Time: 5-7days

Payment Terms: L/C,D/A,D/P,T/T,Supply Ability: 10000000kg

Product Specification

Modeling: Extrusion
Type: PLA+
Origin: China
Tolerance: ±0.02mm
Suitable For: Universal
Forming Technology: FDM

Product Description

iboss Temperature Color Change PLA+ Filament 1.75mm, Color Change Orange to Yellow 3D Printer Filament PLA+, Fit for Most FDM 3D Printers

The iboss Temperature Color Change PLA+ Filament, measuring 1.75mm, is a remarkable product for 3D printing enthusiasts. As an enhanced version of traditional PLA, this filament offers increased strength and toughness.

One of its most fascinating features is the color - change effect. Starting from orange, it transitions to yellow as the temperature changes, adding an element of interactivity to your 3D prints. This makes it perfect for creating unique, temperature - sensitive artworks, educational models, or functional items that indicate temperature variations.

It is compatible with most FDM 3D printers, ensuring wide usability. Whether you're a hobbyist or a professional, this 1.75mm filament provides smooth extrusion and high - quality results, allowing you to bring your creative 3D printing ideas to life with ease and style.

APPLICATION

Work for 99% FDM 3D Printer & 3D Pen

THE CHOICE OF "STRONG AND TOUGH"

Accurate 3D Printer Filament Diameter

Ensuring smooth and uniform extrusion for superior prints.

PODUCT FEATURES

IMPORTED RAW MATERIALS

Use imported superior raw materials Standardized manufacturing process The production quality is guaranteed

HIGH QUALITY

High quality ensures the efficiency of operation, PLA: No Bubble, No Clogging

HIGH TOUGHNESS

Compared with pla,the toughness is greafly improved: No Cracking, Minimal Warping

Eco-friendly Non-toxic

Using natural degradable raw materials, Environmental protection, non-toxic and harmless

SIMPLE OPERATION

Can be printed directly without heated build platfom

Low warping

Low warping, stable and efficient suitble for printinglarge models

About us

Qingyuan iBOSS Intelligent Technology Co., Ltd. is a high-tech enterprise specializing in the R & D, production and sales of 3D printing consumables and 3D printers. The company is committed to the development and application of 3D printing materials.

With the mission of "developing green and environment-friendly 3D printing materials and promoting human sustainable development", the company is committed to enabling intelligent manufacturing with material technology and providing better product and service experience for users in the global 3D printing industry

QINGYUAN IBOSS INTELLIGENT TECHNOLOGY CO., LTD.

It is an international team full of enthusiasm for 3D printing. We produce the best 3D printing materials by controlling each stage of production. With a diverse portfolio of materials from high-performance plastics to unique aesthetic solutions, polymaker will continue to add cutting-edge materials to its growing portfolio. Adhering to the corporate philosophy of "integrity, focus, innovation and pragmatism", while striving for the company, the company continues to forge ahead and strive to promote the innovative development of the world's 3D printing industry.
