Product Description

iBOSS 3d Printing Filament Shanhaijing Wood Color 1kg PLA+ Filament 3D Printer Filament 1.75mm

Crafted from high - quality, eco - friendly materials, it's not only biodegradable but also non - toxic and odorless, ensuring a safe printing environment. The filament offers excellent dimensional accuracy with a tolerance of $\pm 0.02\text{mm}$, resulting in consistent and stable prints. Its high strength and enhanced toughness, an upgrade from regular PLA, mean less chance of breakage during printing.

With a smooth texture, it melts well and feeds continuously, preventing nozzle clogging. It's widely compatible with most FDM 3D printers, such as Prusa, Makerbot, and Ultimaker. The unique Shanhaijing wood color adds a natural, rustic charm to your 3D creations, whether it's a decorative piece or a functional model.

SUITABLE FOR ALL 3D PRINTERS ON THE MARKET

Accurate 3D Printer Filament Diameter

Ensuring smooth and uniform extrusion for superior prints.
