

330m Length PLA Filament 1.75mm Diameter 1kg for Professional and Versatile 3D Printing

Our Product Introduction

for more products please visit us on iboss3d-export.com

Basic Information

- Place of Origin: Qingyuan, china
- Brand Name: iBOSS
- Certification: ROHS
- Model Number: PLA
- Minimum Order Quantity: 48kg/rolls
- Price: US\$8
- Packaging Details: 1KG/PCS, packed into a 30*35CM PU vacuum shrink bag, 12 corrugated aircraft CTNs(21.5*20.5*6.9CM) in a 43.1*23.2*43CM box,
- Delivery Time: 5-7days
- Payment Terms: L/C, D/A, D/P, T/T,
- Supply Ability: 10000000kg

Product Specification

- Length Of Line (Ø 1.75±0.2mm): 1.75mm=330m
- Gross Weight: 1.4KG
- Specification: PLA+
- Weight: 1kg
- Printing Speed: 50-100m
- Product Category: PLA Filament
- Print Temperature (°C): 190-220°C
- Product Name: Iboss High Toughness 3D Printing Filament
PLA+ Wood Color 1.75mm Biodegradable
PLA +Filament
- Highlight: **330m Length PLA Filament ,
Versatile 1.75mm PLA Filament,
Versatile 3D Printing PLA Filament**

Product Description

Product Description:

Introducing our top-of-the-line PLA+ Filament, a premium-grade 3D printing filament designed to meet the needs of professional and hobbyist 3D printing enthusiasts. This high-quality PLA filament is a perfect choice for a wide range of 3D printing applications, offering exceptional printing precision and reliability.

Our PLA+ Filament falls under the product category of PLA Filament, which is renowned for its ease of use and versatility in 3D printing. With a tolerance of $\pm 0.02\text{mm}$, this filament ensures consistent and accurate prints, making it ideal for intricate and detailed projects. The PLA+ Filament is specifically formulated to provide superior performance and results compared to standard PLA filaments. Its enhanced properties result in improved strength, durability, and flexibility, making it an excellent choice for a variety of 3D printing projects.

Whether you are a professional designer, engineer, artist, or DIY enthusiast, our PLA+ filament is the perfect solution for your 3D printing needs. Its compatibility with a wide range of 3D printers makes it a versatile option for creating prototypes, functional parts, artistic creations, and more.

With the PLA+ Filament, you can expect consistent and reliable printing results, thanks to its high-quality composition and precise manufacturing process. Say goodbye to failed prints and wasted material, and enjoy a seamless 3D printing experience with our premium PLA+ filament.

Upgrade your 3D printing projects with our advanced PLA+ Filament and unleash your creativity with confidence. Whether you are a beginner or an experienced maker, this filament is sure to elevate your printing capabilities and deliver exceptional results every time.

Features:

Product Name: PLA Filament

Applicable: Desktop Printer

Packing box size: 21*21*7cm

Diameter(mm): 1.75mm

Bubble: 100% Without Bubble

Forming Technology: FDM

Technical Parameters:

Weight	1kg
Model	PLA+
Length of Line ($\varnothing 1.75\pm 0.2\text{mm}$)	1.75mm=330m
Application	3D Printer
Applicable	Desktop Printer
Diameter(mm)	1.75mm
Packing box size	21*21*7cm
Specification	PLA+
Print Temperature ($^{\circ}\text{C}$)	190-220 $^{\circ}\text{C}$
Forming Technology	FDM

Applications:

The iBOSS PLA filament is a high-quality 3D printing filament that is perfect for a wide range of product application occasions and scenarios. Whether you are a professional in the 3D printing industry or a hobbyist looking to bring your creative ideas to life, the iBOSS PLA filament is an ideal choice.

With its brand name iBOSS and model number PLA, this filament is manufactured in Qingyuan, China, ensuring high quality and reliability. The minimum order quantity for this product is 48kg/rolls, making it suitable for both small-scale and large-scale projects. At a price of US\$8, the iBOSS PLA filament offers great value for money.

Payment terms for this product include L/C, D/A, D/P, and T/T, providing flexibility for customers. With a supply ability of 10,000,000kg, you can rely on the iBOSS PLA filament to meet your needs consistently. The delivery time is quick, ranging from 5-7 days, ensuring that you can start your projects without delay.

The packaging details of the iBOSS PLA filament are designed to protect the product during transit. Each roll weighs 1KG and is packed into a 30*35CM PU vacuum shrink bag. The rolls are then placed in 12 corrugated aircraft CTNs (21.5*20.5*6.9CM) within a 43.1*23.2*43CM box, ensuring that the filament arrives in perfect condition.

With certification for ROHS, you can trust that the iBOSS PLA filament meets high safety and quality standards. The filament is suitable for use in 3D printers, making it versatile for a variety of projects. With a gross weight of 1.4KG and a diameter of 1.75mm, this filament is compatible with most desktop printers.

The base plate temperature for this PLA filament is 60 $^{\circ}\text{C}$, providing optimal printing conditions for your projects. Whether you are creating prototypes, functional parts, or artistic designs, the iBOSS PLA filament delivers excellent results. Invest in this reliable and high-quality filament for all your 3D printing needs.

Support and Services:

The Product Technical Support and Services for the PLA Filament product include:

- Assistance with troubleshooting any issues related to the filament, such as printing problems or quality issues.
- Guidance on optimal settings for your 3D printer when using PLA filament.
- Recommendations on storage and handling to ensure the longevity and quality of the filament.
- Information on compatibility with different 3D printers and how to achieve the best results.

Packing and Shipping:

Product Packaging:

Our PLA Filament is carefully packaged to ensure its safety during shipping and storage. Each spool is shrink-wrapped and placed in a sturdy box to prevent any damage. The box is labeled with product information and handling instructions for your convenience.

Shipping Information:

Once your order is placed, our team will pack your PLA Filament with care and ship it to your designated address. We use reliable shipping services to ensure that your product arrives safely and on time. You will receive a tracking number to monitor the status of your delivery.

FAQ:

Q: What is the brand name of this PLA Filament?

A: The brand name is iBOSS.

Q: What is the model number of this PLA Filament?

A: The model number is PLA.

Q: Where is this PLA Filament manufactured?

A: The PLA Filament is manufactured in Qingyuan, China.

Q: What are the payment terms accepted for purchasing this PLA Filament?

A: The accepted payment terms are L/C, D/A, D/P, and T/T.

Q: What is the minimum order quantity for this PLA Filament?

A: The minimum order quantity is 48kg/rolls.
