

±0.02mm Tolerance and 1.75mm 330m Length of Line PLA Filament for Industrial

Our Product Introduction

for more products please visit us on iboss3d-export.com

Basic Information

- Place of Origin: Qingyuan, china
- Brand Name: iBOSS
- Certification: ROHS
- Model Number: PLA
- Minimum Order Quantity: 48kg/rolls
- Price: US\$8
- Packaging Details: 1KG/PCS, packed into a 30*35CM PU vacuum shrink bag, 12 corrugated aircraft CTNs(21.5*20.5*6.9CM) in a 43.1*23.2*43CM box,
- Delivery Time: 5-7days
- Payment Terms: L/C, D/A, D/P, T/T,
- Supply Ability: 10000000kg

Product Specification

- Applicable: Desktop Printer
- Packing Box Size: 21*21*7cm
- Base Plat Temperature 60°C (°C):
- Weight: 1kg
- Length Of Line (Ø 1.75±0.2mm): 1.75mm=330m
- Tolerance(mm): ±0.02mm
- Forming Technology: FDM
- Application: 3D Printer
- Highlight: **Industrial PLA Filament,
1.75mm 330m Line PLA Filament,
330m Length PLA Filament**

Product Description

Product Description:

Are you looking for a reliable and high-quality PLA filament for your 3D printing projects? Look no further than our PLA Filament! This product is designed to meet the needs of 3D printing enthusiasts and professionals, offering excellent performance and consistent results.

When it comes to 3D printing, speed is essential. With a printing speed range of 50-100mm, our PLA filament allows you to complete your projects efficiently without compromising on quality. Whether you are working on a small prototype or a large-scale model, this filament will help you achieve smooth and accurate prints every time.

The gross weight of our PLA filament is 1.4KG, providing you with a substantial amount of material to work with. This means fewer interruptions during your printing process and more time dedicated to creating amazing designs.

Precision is key in 3D printing, and our PLA filament delivers exceptional accuracy. With a tolerance of $\pm 0.02\text{mm}$, you can trust that your prints will turn out exactly as intended, with crisp details and precise dimensions.

Each spool of our PLA filament weighs 1kg, making it easy to handle and store. The manageable weight ensures smooth feeding into your 3D printer, resulting in consistent and reliable extrusion throughout your printing session.

Our PLA filament comes in a standard diameter of 1.75mm, with a tolerance of $\pm 0.2\text{mm}$. This precise sizing guarantees compatibility with a wide range of 3D printers, giving you the flexibility to use this filament with various machines. Additionally, you get an impressive length of line, with 1.75mm equating to 330m of filament on each spool.

In conclusion, our PLA filament is the ideal choice for all your 3D printing needs. With its optimal printing speed, generous weight, high precision, and compatibility with different printers, this filament is a versatile and reliable option for both beginners and experienced users. Trust our PLA filament to bring your 3D printing projects to life with outstanding quality and consistency.

Features:

Product Name: Iboss High Toughness 3D Printing Filament PLA+ Wood Color 1.75mm Biodegradable PLA +Filament

Applicable: Desktop Printer

Base plate Temperature (°C): 60°C

Tolerance(mm): $\pm 0.02\text{mm}$

Application: 3D Printer

Technical Parameters:

Base Plate Temperature (°C)	60°C
Applicable	Desktop Printer
Forming Technology	FDM
Specification	PLA+
Application	3D Printer
Diameter (mm)	1.75mm
Model	PLA+
Gross Weight	1.4KG
Net Weight (KG)	1KG
Packing Box Size	21*21*7cm

Applications:

iBOSS PLA filament is a high-quality 3D printing filament suitable for a wide range of product application occasions and scenarios. Made in Qingyuan, China, this PLA filament is known for its superior quality and performance.

With a minimum order quantity of 48kg/rolls and priced at US\$8, iBOSS PLA filament is an affordable option for both professional and hobbyist 3D printing enthusiasts. The payment terms accepted include L/C, D/A, D/P, and T/T, making it convenient for customers to place their orders.

With a supply ability of 10000000kg, iBOSS PLA filament ensures that customers can rely on a consistent and uninterrupted supply of this essential 3D printing material. The quick delivery time of 5-7 days further adds to the convenience of ordering this product.

The packaging details for iBOSS PLA filament are designed to ensure the safe delivery of the product. Each roll weighs 1KG and is packed into a 30*35CM PU vacuum shrink bag. Additionally, 12 corrugated aircraft CTNs (21.5*20.5*6.9CM) are packed into a 43.1*23.2*43CM box for added protection during shipping.

iBOSS PLA filament is certified with ROHS certification, guaranteeing its safety and quality standards. The filament is 100% bubble-free, ensuring smooth and consistent 3D printing results. With a tolerance of $\pm 0.02\text{mm}$, users can expect precise and accurate prints every time.

The base plate temperature for iBOSS PLA filament is 60°C, making it compatible with a wide range of 3D printers. Whether you are a professional designer or a hobbyist, iBOSS PLA filament is a versatile and reliable choice for all your 3D printing needs.

Support and Services:

Our Product Technical Support and Services for the PLA Filament include troubleshooting assistance, guidance on proper usage, and recommendations for optimal printing settings. Our team of experts is dedicated to ensuring that you have a seamless experience with our product and are available to address any questions or concerns you may have.

Packing and Shipping:

Product Packaging:

Our PLA Filament is carefully packaged in a vacuum-sealed bag to ensure its quality and prevent moisture absorption. The bag is then placed in a sturdy cardboard box for added protection during shipping.

Shipping:

All orders are processed within 1-2 business days. We use reliable shipping services to deliver your PLA Filament safely and promptly. Tracking information will be provided once your order has been shipped.

FAQ:

Q: What is the Brand Name of this PLA Filament product?

A: The Brand Name is iBOSS.

Q: What is the Model Number of this PLA Filament product?

A: The Model Number is PLA.

Q: Where is this PLA Filament product manufactured?

A: This product is manufactured in Qingyuan, China.

Q: What is the Minimum Order Quantity for this PLA Filament product?

A: The Minimum Order Quantity is 48kg/rolls.

Q: What is the Price of this PLA Filament product?

A: The Price is US\$8.
