

PLA 3D Printing Filament 1KG Net Weight for Smooth and Precise Prints

Our Product Introduction

for more products please visit us on iboss3d-export.com

Basic Information

- Place of Origin: Qingyuan, china
- Brand Name: iBOSS
- Certification: ROHS
- Model Number: PLA
- Minimum Order Quantity: 48kg/rolls
- Price: US\$8
- Packaging Details: 1KG/PCS, packed into a 30*35CM PU vacuum shrink bag, 12 corrugated aircraft CTNs(21.5*20.5*6.9CM) in a 43.1*23.2*43CM box,
- Delivery Time: 5-7days
- Payment Terms: L/C, D/A, D/P, T/T,
- Supply Ability: 10000000kg

Product Specification

- Tolerance(mm): ± 0.02 mm
- Printing Speed: 50-100m
- Forming Technology: FDM
- Length Of Line (\varnothing 1.75 \pm 0.2mm): 1.75mm=330m
- Weight: 1kg
- Application: 3D Printer
- Net Weight (KG): 1KG
- Product Category: PLA Filament
- Highlight: **PLA Filament for Precise Prints , Smooth 3D Printing Filament**

Product Description

Product Description:

Introducing our high-quality PLA Filament, the perfect choice for all your 3D printing needs. This PLA+ filament is designed to provide excellent printing results, ensuring smooth and precise prints every time.

With a printing speed of 50-100m, this filament allows you to efficiently bring your 3D designs to life. Whether you are a beginner or an experienced 3D printing enthusiast, our PLA filament is easy to work with and delivers consistent performance.

The gross weight of this product is 1.4KG, with a net weight of 1KG. This ensures that you have an ample supply of filament to complete your printing projects without any interruptions. The filament itself weighs 1kg, making it easy to handle and store.

Our PLA filament has a diameter of 1.75mm with a tolerance of $\pm 0.2\text{mm}$, providing a stable and reliable filament flow during the printing process. With a length of 330m, this filament offers great value for money and allows you to create multiple prints without worrying about running out of material.

Whether you are creating prototypes, functional parts, or artistic designs, our PLA filament is versatile enough to meet all your 3D printing needs. The PLA+ formula ensures that your prints have a smooth finish and excellent layer adhesion, resulting in high-quality prints every time.

Upgrade your 3D printing experience with our PLA filament and unlock a world of possibilities. Order yours today and start bringing your ideas to life with precision and ease!

Features:

Product Name: Iboss High Toughness 3D Printing Filament PLA+ Wood Color 1.75mm Biodegradable PLA +Filament

Weight: 1kg

Application: 3D Printer

Applicable: Desktop Printer

Specification: PLA+

Technical Parameters:

Print Temperature (°C)	190-220°C
Length of Line (Ø 1.75±0.2mm)	1.75mm=330m
Tolerance(mm)	±0.02mm
Gross weight	1.4KG
Printing Speed	50-100m
Bubble	100% Without Bubble
Specification	PLA+
Diameter(mm)	1.75mm
Forming Technology	FDM
Base plat Temperature (°C)	60°C

Applications:

When it comes to choosing a reliable PLA filament for your 3D printing needs, look no further than the iBOSS PLA filament. With a model number of PLA, this filament is known for its high quality and consistency, making it suitable for a wide range of product application occasions and scenarios.

The iBOSS PLA filament, originating from Qingyuan, China, offers a minimum order quantity of 48kg/rolls at a competitive price of US\$8 per roll. The flexible payment terms including L/C, D/A, D/P, and T/T, make it convenient for businesses of all sizes to procure this filament. With a remarkable supply ability of 10,000,000kg, you can rely on iBOSS to meet your PLA filament needs efficiently.

Whether you are working on a small-scale project or a large production run, the iBOSS PLA filament guarantees a speedy delivery time of 5-7 days. The packaging details are designed to ensure the safety and quality of the product, with each roll packed into a 30*35CM PU vacuum shrink bag and 12 corrugated aircraft CTNs in a 43.1*23.2*43CM box.

Rest assured, the iBOSS PLA filament is certified with ROHS, meeting international standards for quality and safety. The PLA+ filament variant offers enhanced features such as a printing speed of 50-100m and a tolerance of $\pm 0.02\text{mm}$, making it ideal for intricate designs and precise prints.

Whether you are a hobbyist, a professional designer, or a manufacturing company, the iBOSS PLA filament is versatile enough to cater to all your 3D printing needs. Its base plate temperature of 60°C ensures adhesion and stability during the printing process, resulting in flawless prints every time.

Support and Services:

Our Product Technical Support and Services for PLA Filament include:

- Assistance with troubleshooting common printing issues related to PLA Filament such as clogging, poor adhesion, or warping.
- Guidance on proper storage and handling of PLA Filament to ensure optimal print quality and longevity.

- Recommendations for compatible 3D printers and settings for successful printing with PLA Filament.
- Information on best practices for post-processing PLA prints, such as sanding, painting, or finishing techniques.

Packing and Shipping:

Product Packaging:

Our PLA filament is carefully packaged in a vacuum-sealed bag to prevent moisture absorption and ensure long-lasting quality. The bag is then placed in a sturdy cardboard box for added protection during shipping.

Shipping Information:

All orders are processed and shipped within 1-2 business days. We offer standard shipping via reputable carriers to ensure timely delivery. Once your order is shipped, you will receive a tracking number to monitor the status of your delivery.

FAQ:

Q: What is the brand name of this PLA Filament product?

A: The brand name is iBOSS.

Q: Where is this PLA Filament product manufactured?

A: The product is manufactured in Qingyuan, China.

Q: What are the accepted payment terms for purchasing this PLA Filament product?

A: The accepted payment terms are L/C, D/A, D/P, and T/T.

Q: What is the minimum order quantity for this PLA Filament product?

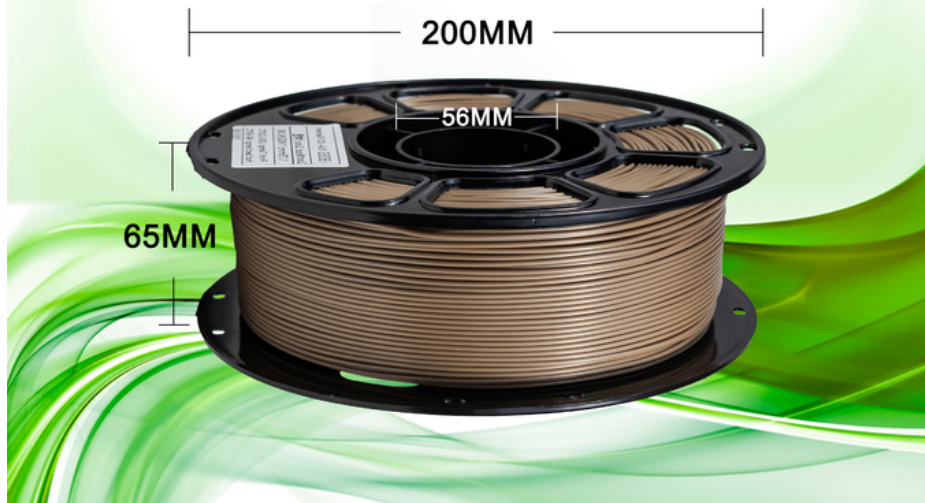

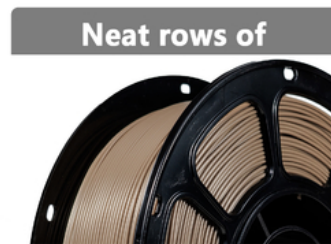

A: The minimum order quantity is 48kg/rolls.

Q: What is the price of the iBOSS PLA Filament product?

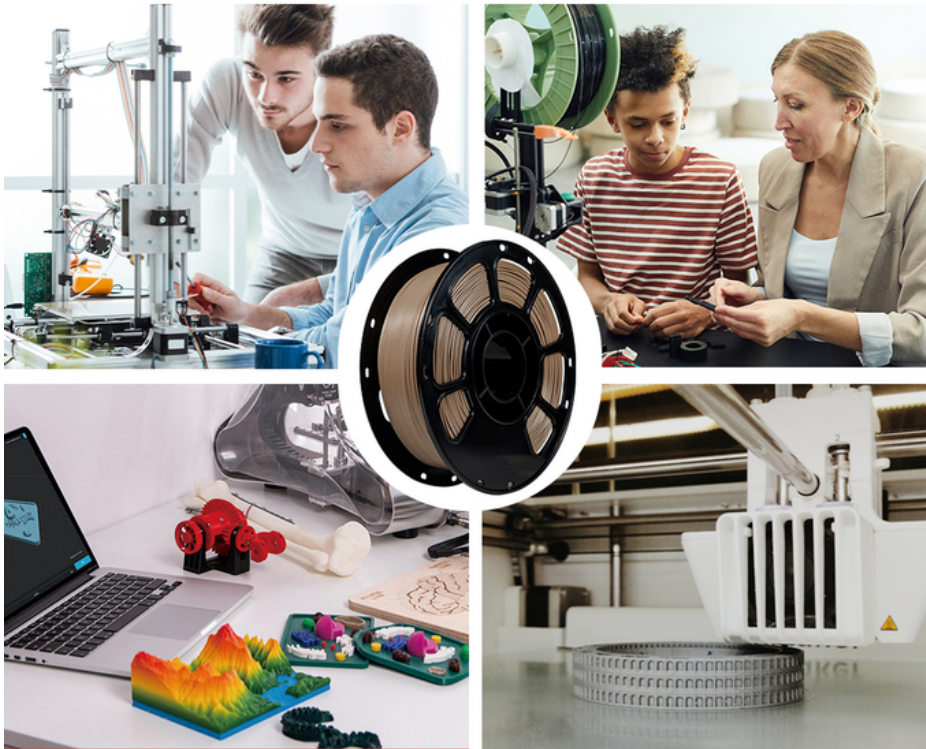

A: The price is US\$8 per unit.
